## Old catholic church Augustin. Zürich (CH)

### **The chamber organ that leaves nothing to be desired!**

The 6 stops enable a wide variety of mixtures, timbres and volumes. The sound of the wooden pipes has a typically gentle, soft quality, coupled with a characterful voicing. The Regal, housed in the swell box, can take on both solo and accompanying functions. Built on a 415Hz basis, with the option of transposition to 440Hz. Built-in wheels, coordinating ornamental grilles.

As such, this organ is used in alternative forms of worship, chamber music, concerts and cantatas.
